Subject: Hartridge Subdivision North Cable Replacement
Along Crescent Lane, from Windsor Circle to Oxford Dr
WR# 4063317

Dear Customer:

As a part of our continuing effort to improve service and reliability, we will soon be rebuilding underground electric facilities in your area. This work will involve replacing underground cables, transformers and other equipment along the route. Due to changes in standards and/or the use of upgraded equipment, size or height of newly installed facilities may not be identical to current facilities.

Construction is expected to begin this fall/winter. Here are some things you can expect over the course of the project:

- We will contact Diggers Hotline to locate existing utility-owned underground facilities including natural gas, electric, telephone, cable television, sewer and water.
 - **Please call me to report any private buried facilities** on your property, such as sprinkler system, electric, propane, sewer and sump pump lines, well, septic system, yard lighting, etc. If you are not sure about the location of private facilities, We Energies may arrange for private locates on facilities that are in the path of our work.
- Trimming and/or removal of trees to provide adequate clearance around our facilities (where applicable). Asplundh Tree Experts, our forestry contractor, will contact you to discuss forestry work that will take place on your property.
- Notification of any significant changes to equipment on your property.
- Advance notice about scheduled interruptions.
- Surface area repair after construction is complete – weather permitting.

We will continue to communicate details about our work as we move through the project – including notification a few weeks prior to start of construction. If you have any questions, please call me at 414-944-5753 or email Kyle.Koski@we-energies.com and reference the work request number in the subject line above. Thank you for your cooperation and understanding as construction takes place in your neighborhood.

Sincerely,

A handwritten signature in cursive script that reads "Kyle Koski".
